It Takes a Village

We are so glad to announce a partnership with the Red Cross, the State Fire Marshal's Office, and your local fire departments to bring you education, resources, and community support. This collaboration seeks to raise awareness about what safety hazards exist in your home, and what we can do to prevent an emergency before it occurs.

Please fill out the survey on the back of this letter by evaluating your home and send it back in to LCAP for processing. Consider the benefits of allowing this network of community support to contribute to your welfare, at no cost to you. Please indicate on the survey if you are interested in a smoke detector installation, a home safety visit, or fire escape route planning.

Together our agencies will categorize, prioritize, and schedule visits to your home based on what you report and the availability of supplies. There is a nationwide shortage of many supplies, so please be aware that if you haven't gotten a call yet from any of our agencies for follow-up, it is because we are waiting for our order of smoke detectors to arrive.

Everything you report will be confidential, as our goal is to be a part of the solution to keep you well and safe. A community is stronger when it works together. We will only allow trusted representatives from either the Red Cross, LCAP, the Fire Marshals, or your local fire department come into your home and assist you with this home safety project!

We look forward to serving you in a whole new way,

Jessie Leaman
